

Materials Checklists

The Materials Checklist consists of a few different lists: 1) items for the in-house *Hatchlings* kits; 2) suggested materials (by week) for on-site and virtual programs; and 3) items needed to set up and present the *Hatchlings* sessions.

These kits are for use in each session. There should be one kit per person and facilitator (and guests) which will be sanitized after each session and reused in subsequent sessions. Use a permanent marker to make a long line across the handles on the totes which are for library use only. This will distinguish them from totes which are meant to be taken home.
